

THE CHARLEROI MAIL

VOL. XVIII. NO. 52.

CHARLEROI, WASHINGTON CO. WEDNESDAY, AUGUST 15, 1917

ONE CENT

EXEMPTION BOARDS NOT YET READY TO ANNOUNCE LISTS

Examination and Exemption Papers Now Being Examined

RESULTS KNOWN WEDNESDAY

The exemption board of District No. 5 worked all day Tuesday at Donora in tabulating their papers of the examination of registrants for the new National Army, and by this evening may be able to announce its first list of those accepted for the national army.

It is generally believed that the number of men examined, 876, will not furnish the desired quota of 437 and that other men will have to be called. The number of aliens in this district is quite large and they being exempt, according to law, leaves the burden of draft on American citizens. If the number of aliens amounts to 40 per cent it will be seen at a glance that this will leave about 520 men from which to select the district quota. From these figures it is very evident the Board of the Fifth district will be compelled to call several hundred more registrants in this section in order to get the necessary number of men required by the government from the Fifth district.

The work in the other districts of the county is proceeding slowly. Two districts, Nos. 2 and 4, held physical examinations Tuesday while the others were busy in examining papers. From report already received it is evident that practically all of them will be compelled to call more men in order to make up their quota, due to the large alien element, and the large number of men asking exemption, many of whom have excellent grounds for asking to be relieved. It will be a couple of days before the Boards in the county have completed their work and it will require the hardest kind of work on their part to complete the county quota before the first of September.

UNTIL FURTHER NOTICE CONSERVE THE WATER SUPPLY

Owing to boiler trouble the Tri-Cities Water company is experiencing considerable difficulty in maintaining the water supply. We urge upon all our consumers to be as saving as possible with the water until we get in better shape, which we hope will be within the next few days. Request has been made to the borough to use no water for street purposes until the situation is relieved. All mills and other industries are asked to give this grave situation the widest cooperation.

Open Saturday Evenings from 8:00 until 9:00 o'clock

"SNIPPING" PARTY ON THURSDAY FROM 2 TO 5 O'CLOCK P. M.

The ladies in charge of the sewing for the Charleroi Chapter of the American Red Cross will hold a "Snipping Party" Wednesday afternoon, in the knitting rooms of the Chapter, Stahlman building, Fifth street. The party will begin at 2 o'clock and continue until 5 p. m.

To this festivity all the young boys and girls of Charleroi are invited, being requested to bring with them a large pair of scissors. At the rooms they will be under the direction of the ladies committee, who will direct them in the cutting of all clippings or cuttings from material used in the making of garments for Red Cross hospitals. These small pieces of cloth are to be utilized in the making of "comfort" pillow for the soldiers, and as there is quite a quantity of cut-

tings available for this use, the ladies are particularly anxious that there be a large turn-out of the boys and girls all of whom are requested to come prepared to take part in this work.

The pieces of cloth will be cut to regulation sizes and then neatly packed, ready for use when the making of the pillows is gotten under way. The cutting of this material, however, requires considerable time, but with many workers and hundreds of willing hands, the task will be light, but still will have the opportunity of "doing their bit" to add to the comfort of the men who have been called for service in the army.

The ladies hope that many children may respond to the appeal, and report ready to begin work at 2 o'clock p. m. tomorrow afternoon.

WEDDING BELLS FOR NORTH CHARLEROI GIRL

Miss Ethel Gant, daughter of Mr. and Mrs. E. T. Gant of North Charleroi and R. M. Berryman, of Philadelphia, were married at the parsonage of the Belle Vernon Presbyterian church this morning at 9 o'clock, the ceremony being performed by the Rev. Perrin Baker. The bride and groom left a short time later on a honeymoon trip which will include Philadelphia, Atlantic City, New York and points in the New England states. They will be at home after September 20, at Easton, Pa. There were no attendants. The wedding was a quiet affair due to sickness in the bridegroom's family.

The bride is a graduate of the School of Liberal Arts, Pennsylvania State College, class of '16, was a member of the glee club, and of the girls' sextette. The groom is a graduate of the Engineering department of State College, of '16, and during his stay in school was a star football player. Last year he taught engineering and coached on football at Gettysburg College, and this coming year will coach football and basketball, as well as instruct in engineering at Lafayette College Easton.

Miss Margaret Stephens left last night for Evanston, Ill., where she will visit with her cousin, Miss Margaret Furness.

Democratic meeting at the office of George W. Risbeck, Friday, August 17 at 7:30 p. m. for the purpose of completing a ticket for the coming primary election. All Democrats earnestly requested to attend, especially requested to attend, especially requested to attend.

J. P. Clutter, Precinct Chairman.

TRACK LOADING OF COAL HAS ALMOST CEASED IN CHARLEROI

A GENEROUS DONATION FROM LITTLE RED CROSS WORKERS

Miss Elizabeth Robertson, President of the Little Red Cross workers, handed into the treasurer of the Charleroi Chapter, today \$34.13, the net proceeds of the lawn fete held on the Robertson lawn Thursday evening last. Miss Robertson was assisted by Misses Margaret Knight, Margaret Clark, Alice Elizabeth Wilson, Evelyn Warmsford and Dorothy Murphy; Clarence and Lutellus Robertson and Leland and Robert Moore. This young patriotic band worked very hard and the result of their labors were shown by the splendid sum they are able to turn over to the local Chapter, which will be used in providing comforts for the soldiers now in service. The promoters wish to thank all who in any way contributed to the success of the undertaking.

COAL IS NEEDED IN NORTHWEST

Increase of 200,000 Tons a Week Required to Meet the Demand

LOCAL MINES WILL PROFIT

Coal operators in the Monongahela valley, particularly those who ship to the lakes, are likely to profit by arrangements under way and which have been tentatively agreed upon, for a diversion of a part of their output to northern points.

For some time there has been a fear of a shortage of coal in the northwest the coming winter and in order to prevent any such condition plans have been practically agreed upon to divert a goodly portion of the coal traffic to points in that section of the country.

The plan contemplates furnishing bituminous coal operators who can ship to Cleveland and Eastern lake ports 100 per cent car service with the understanding that they will ship 50 per cent of their output to lake ports for reshipment to Northwestern territory.

To relieve the situation in that section will require the moving of 17,000,000 tons of coal in the remaining 16 weeks of lake navigation. Present weekly rate of coal movement, 940,000 tons; necessary weekly increase, approximately 200,000 tons.

As many mines from the Monongahela valley and adjacent territory ship to lake ports, it will thus be seen that local developments will be computed to materially increase their present tonnage in order to fill their quota of supply. It will mean several months of intensive work, with the railroads utilizing every ounce of their motive power and all of their carrying capacity to keep up with the demands which will be made upon them. The financial returns will be gratifying large to the valley and to this district.

Will Mean Quite a Loss of Revenue to Dealers and the Community

DEALERS MAY TAKE ACTION

The local coal situation so far as it relates to the loading of cars on sidings has changed little if any from Tuesday. No coal was loaded yesterday, and this morning but one GS gondola had been delivered to a local shipper. So far as can be learned, there has been no concerted effort on the part of the team track loaders along the valley to take action against the ruling of the Pennsylvania Railroad, which they say practically amounts to putting them out of business. What may be done in the future is a matter of conjecture.

One phase of the situation to which attention was called this morning by one of the shippers, was the fact that if the small loaders are eliminated it will mean a considerable loss in revenue to the community.

There are about a dozen different firms engaged in team track loading in Charleroi and vicinity. The aggregate amount of coal shipped runs into many hundreds of tons of coal each week, while the pay-roll has averaged very close to \$7,000 every two weeks. With local shipments cut off this will mean that these payrolls, which have been coming with such great regularity, will cease and the many teams which have been engaged in this business will have to seek other employment.

One dealer said this morning that if the Pennsylvania would furnish him with all the GS gondolas he could use he would be perfectly satisfied; that his trade was such that he could use them to advantage, but when it came to box cars, there was where he would have to quit. The trouble with the box car proposition would be in disposing of coal after loaded, although there is certain trade that would take shipments that way.

It is possible the team track loaders of Charleroi, in conjunction with others in the valley affected by the order, will take some action relative to the order now in force, with a view of having some modification made. That will develop later.

BOY KNOCKED DOWN AND INJURED BY AUTOMOBILE

Samuel Zeidman, aged about 5 years, son of Jacob Zeidman of McKean avenue and Fourth street, was knocked down by an automobile near Washington avenue and Second street, Tuesday afternoon. The boy received a severe gash in the back of his head, which required two stitches to close. He was taken to Dr. Hunter for treatment. Today he is confined to his home, although his injuries are not considered serious.

BRITISH WAR PICTURES TO BE SHOWN AT COYLE

On Wednesday, August 22, at the Coyle theatre, fourteen reels of official British War Pictures will be shown. The pictures are owned by the British government and one of their representatives will be in charge here.

THE SMALL COAL SHIPPER

The recent order issued by the Pennsylvania Railroad, whereby the country mine shipper who loaded his coal from wagons into cars, will have to use a certain type of gondola or box car is one that is apt to put him out of business.

The question of a car supply to these small shippers has been a bone of contention for a number of months and last March hearings were held in Harrisburg before the Public Service Commission, bearing on this important point. From that controversy the small shipper emerged an apparent victor, but his victory has been short-lived. The railroads, always fretting against the method which held single cars on different sidings even for a day while being loaded with coal, have evidently been doing some figuring. The result was the order of last Saturday, which deprived the small shipper of the big self-cleaning hopper car.

To load coal into the gondola car specified would not cost the shipper any more money than at present, but it would cost the purchaser a great deal more to unload. The same holds good of the box car. And this is the point that is apt to act disastrously to the small shipper.

The railroads claim to be acting in conformity with suggestions of the committee of national defense in furnishing all the cars possible to coke plants and blast furnaces, and in order to do this they say the hopper bottom car must be reserved for this trade if these industries, so essential to national preparedness, are to be carried on successfully during the present war.

The small operators say they will appeal to the Public Service Commission for a ruling that will prevent what they call discrimination, but whether it will be effective is a matter the future alone can determine.

END OF WHEAT TRADING

The end of the wheat trader—the man who deals in grain without ever seeing a bushel of it—is believed to be in sight. At least this is the feeling which prevails in Chicago at the present time, the center of the circumference of wheat trading.

The wheat control measure, details of which have been announced by Food Controller Hoover, is responsible for the passing of this phase of speculative activity, which in the past has added to the financial gain of the few to the detriment of the many.

Mr. Hoover has announced in no uncertain tones the policy of the government on wheat control. He has requested that all trading in "futures," the buying of grains for future delivery, be abolished. If there is not a compliance with this request then the government will take other and more drastic action, which will bring those who attempt to speculate to their senses.

It has been a singular phase of the commercial activities of the United States that grains, which form such a vital portion of the foodstuffs of the nation, should be the football of speculators and that groups of financial men could be able to manipulate the price to their advantage, and to the detriment of the great mass of the people. A specimen of his speculative activity was shown early in the conflict when wheat went almost to par and the prices in the Chicago market fell, four following closely.

The abolishment of speculation will have a tendency to stabilize values, and give the people at large their flour at a reasonable price.

WATER YOUR OWN BUNDLE

A movement, favored by the government as a war measure, is to have purchasers carry their goods home after making a purchase. The idea is to reduce the cost of handling merchandise with a view of giving the consumer lower prices. The movement is a good one and the motive is to be commended, but we fear that those who do their own "toting" will be the beneficiaries of the move-

ment to the extent hoped for by the promoters.

Undoubtedly it costs merchants a great deal of money to transport goods from the dealer to the purchaser. And this expense can only be met by adding to the cost of the goods. Just what proportionate reduction should be made by reason of the abolition of free delivery may be hard to estimate, but the best way to give the plan a trial would be make the purchasers who "totes" his or her own basket of groceries or other articles of merchandise an immediate reduction on the price, at the same time adding to the price of those who insist on having their goods delivered.

If the people are able to see tangible results at once the plan has a better opportunity of not only becoming popular, but likewise of solving a problem which has in the past given dealers a great deal of trouble.

FORMING THE UNITS

Washington county's quota under the draft for the new National Army is 1615 men, a comparatively small number compared with the total population of the county, but a number sufficiently large to make an impression on the various industries in the different communities. Of this number 437 will come from the Fifth district composed of New Eagle, Carroll township, Monongahela, Donora, Fallonsfield township, North Charleroi and Charleroi. These 437 men will make, under present regulations three companies of infantry of 150 men each, or if the plan is changed, almost two companies of 250 men each.

The first unit of these men will report to the concentration camp about the 5th of September, others to report later in the month. Just where the government will send them may not be definitely known at the present time, as circumstances are likely to arise at any time that will make a change of base absolutely necessary. However, it would be a splendid thing if all of men drafted from the county would be sent to the same cantonment, and as far as possible formed into one military unit. Of course the 1615 men of Washington county would not form a regiment, but in conjunction with a county like Fayette for instance enough men could be obtained for regiment of 3,000 strength. This may be the policy of the government and if so, we believe it is to be commended. There would be less time in welding such an organization together, because men coming from the same locality, many of them friends, and all imbued with a certain amount of pride of their home communities would tend to give an esprit du corps to such a unit that would tend to make it more effective when it came to do service in the field.

GARDEN COLUMN

By National Emergency Food Garden Commission

PRIZES OFFERED FOR BEST VEGETABLES GROWN

Inquiries are coming in from all over the country to the National Emergency Food Garden Commission of Washington which is co-operating with the Mail in a nation wide drive to can and dry the produce of war gardens. The Commission, in co-operating with this paper, will give \$5,000 in prizes for the best canned vegetables grown in war gardens and all war garden committees and any others in charge of canning exhibitions to write to P. S. Ridsdale, the secretary of 210 Maryland Bldg. for further information as to the awards.

Here are some suggestions to those who will exhibit their canned vegetables:

Tomatoes—Select fruits of uniform size and color, peel carefully and pack in layers stem side down so the tomatoes are in rows from bottom to top of can. They may also be placed so that one layer breaks joints with the next above and below.

Peas—Sort the peas so they will be of the same size and color and sterilize carefully so the can will be full of liquid. Do not overcook or have split peas in the can or the liquid will be milky.

Corn—Use well filled ears of light color with kernels of uniform size in just prime condition for t-bling use. Blanch five minutes cold dip and cut the kernels rather close up to the cob. By cutting carefully parts of rows will stick together and may be placed in circular rows or rings around the cans. If sterilizing in steam a low pressure will be likely to give a lighter colored product than high pressure. One pound pressure for two hours is ideal.

Beets—Select small beets of same size, shape and color, peel carefully and arrange in layers in the jar. The process of sterilizing will take out

some of the color but will return if the jars are kept from the light.

Carrots—Carrots of the same shape, size and color make an attractive exhibit. After they are blanched, cold dipped and peeled pack lengthwise from bottom to top and alternate so that every other one has the top in the same direction.

Lima Beans—These should also be selected so as to be of same size and color. Two or three layers may be placed flat side out and then several layers with edge out.

Tramp Traps.

The Southern Pacific railroad has several "tramp traps" in the shape of freight cars which are left in condition to invite the tramps, and after a number of them have boarded it the doors are mysteriously closed and they are prisoners.—Exchange.

The Contrast.

"Did you miss your first husband very much?"
"Not until after I married my second."—London Opinion.

Youth is a blunder, manhood a struggle, old age a regret.—Disraeli.

A WEIGHTY ARGUMENT FOR THIN PEOPLE

You can put on weight just as easily as you can take off your hat. You can say "good-bye" to scrawny-ness and "how do you do" to a plump, well-rounded body. It's all a question of eating the proper food.

Increased weight and heightened vitality are waiting around the corner for you under the name of HEMO.

HEMO is concentrated nourishment. It is more than malted milk. It contains, in addition to all the food values of malted milk, the full nutritive force of prime beef, together with the natural iron to aid in making red blood.

Take HEMO regularly and you will soon realize the great benefits of this food drink. Good for children as well as for grown-ups. Makes a delicious food drink by simply adding water. We suggest that you try a 50c package with our guarantee of satisfaction.

A WOMAN'S BACK

The Advice of This Charleroi Woman is of Certain Value.

Many a woman's back has many aches and pains.

Of times 'tis the kidneys' fault.

That's why Doan's Kidney Pills are so effective.

Many Charleroi women know this. Read what one has to say about it:

Mrs. Fred Jackson, 267 Prospect avenue, Charleroi, says: "I was troubled by a constant backache. If I did a little extra work the pain in my back was intense. I didn't rest well at night and got up in the morning lame and stiff. If I stooped, sharp pains caught me and I could hardly straighten. I also had rheumatic pains in my back and arms and I couldn't do any sweeping. Dizzy spells and hot flashes bothered me terribly. As Doan's Kidney Pills had been used in the family, I got a box at Piper Bros' Drug Store and began taking them. One box practically cured me."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mrs. Jackson. Foster-McBum Co., Props., Buffalo, N. Y. 40
